Notes:

1. All prices are in US Dollars and do not include shipping expenses or costs associated with international trade.
2. Pricing subject to change without notice and may be superceded by other agreements
3. All items are ~60-day delivery, not including possible international shipping delays. Payment is net 30 days.
4. Prices listed are only for the VLBI community and may not be distributed outside authorized VLBI institutions without prior written approval from Conduant
5. Note on MV-DM and MV-DMPCB: In order to keep prices down, these items are not functionally tested before shipment when purchased separately. This is due to the high labor cost involved in testing these items. However, an express swap/replacement is offered for any non-operating unit. If you wish to purchase these as tested items, please contact Conduant.
6. Additional information on the Mark 5A system is available at <http://web.haystack.mit.edu/mark5/Mark5.htm>
7. To place an order with Conduant or obtain more information, contact Mark Walker (mark@conduant.com).
